The Project Apollo Archive serves as an online reference source and repository of digital images pertaining to the historic manned lunar landing program. The Archive was created by Kipp Teague in February 1999 as a companion web site to his "Contact Light" personal retrospective on Project Apollo.

The Project Apollo Archive

This entry offers a set of stereoscopic images of the lunar surface captured during the Apollo mission 15. The images feature craters: Krieger, Rocco and Ruth and their surrounding areas. Imagery is offered in various modes, such as: left and right stereo stills, with and without captions and scale information, and 3D anaglyphs.
