Introduction. The new Project Management Institute (PMI ®) Standard, OPM3™, is a great opportunity to expand the project management best practices to the entire organization. However, at a project manager level, selling the idea of applying an organizational project management concept, and successfully implementing it through a Program Management Office (PMO), can be a real challenge.

Implementing a PMO with an OPM3™ roadmap

Within the OPM3 toolset, there is a self-assessment tool that can be used to review which best practices are used within the organization. This tool, which consists of 151 yes/no questions, provides you with graphical representations of the organizations' maturity.

The pathway to OPM3 - Project Management Institute

In simplest terms, an organization using OPM3—either assessing itself, or developing its plan to attain an organizational project management Best Practice—would have the tools to understand what Capabilities they had achieved and those they needed to achieve, as well as a recommended sequence in which to achieve them. The organization would be able to verify the Outcome or evidence indicating they had attained each Capability, and the metric to use to measure this Outcome.
