The general conditions in a construction contract are not to be ignored. Sure, they can cause your eyes to glaze over, but these terms have an enormous impact on how the project will play out . If well drafted, the general conditions should provide a sound framework for the agreement and promote fairness among all contracting parties.

Understanding General Conditions | Construction Contracts

General conditions are all of those items that will not form part of the actual product, once the project has been finalized. The items included under the general conditions are all of those tools, resources, and equipment needed to build a project, but not directly related to the physical construction activities, and that you can be entitled to be compensated for.

Learn About General Conditions in Construction Contracting

Terms and Conditions agreements act as a legal contract between you (the company) who has the website or mobile app and the user who access your website and mobile app. Having a Terms and Conditions agreement is completely optional. No laws require you to have one. Not even the super-strict and wide-reaching General Data Protection Regulation .
